

maximum experience in **minimally invasive surgery**

Minimally invasive procedures by Aultman surgeons are small wonders.

The area's top surgical talent make wonders happen with the newest techniques and latest technologies.

- » **Special instruments and state-of-the-art robotic and miniaturized equipment increase the surgeon's range of motion.**
- » **Tiny cameras give them a more detailed view with magnified images to see more and make better decisions.**

Small wonders are smaller incisions...shorter hospital stays...and less pain or complications. Aultman surgeons have maximum experience in minimally invasive procedures, to make small wonders happen for real people every day.

 **AULTMAN** is *My* Hospital™
